November 2009 Newsletter

Dear Member:

Our meeting will be Wednesday November 4th, 2009 at 6:30 PM at the Outdoor Classroom at the Game, Fish & Parks Offices at Sertoma Park. Our guest speaker will be Heather Morijah of the Grassland Coalition and the SDWF. She will be talking about grassland wilderness designation for a couple of parcels of land in South Dakota. Let's have a good turnout for this program as Heather is coming from Rapid City.

In the last newsletter we sent out our only fund raising project and I want to thank everyone who has already responded to that letter. We need your help if we are to have the necessary funds to available to do the work which we do each year during the legislative session and other events like SDWF Youth Conservation Camp and other things which come up during the year.

This past week we were asked to make contact with the South Dakota Game, Fish & Parks Commission on our support of the purchase of two additional tracts of land in this part of the state for Game Production Areas which are the Brunkow and Stoner additions. We have a standing policy of supporting the purchase of land for Game Production Areas so I sent an email to the commission urging them to approve the purchase of these tracts of land.

Upcoming events:

- **If you know of any events please get them to me and I will put them in this area.**

With all of the hunting seasons which are taking place in this state, take some time to enjoy the resources which we have fought so hard to enjoy. Some of those opportunities exist because of your hard work.

I know this is a short newsletter but it is also a time to pay respects to all of our donors and sponsors. When you see them or are around them, thank them for being a donor/sponsor of our club.
